

REACH STATEMENT

(Registration, Evaluation and Authorisation of Chemicals)

The European Union (EU) REACH directive no.1907/2006, is designed to regulate the Registration, Evaluation, Authorisation and Restriction of Chemical Substances.

The Tibbetts Group review the REACH regulations with our suppliers and to the best of our knowledge and belief none of the articles that we sell intentionally contain any of the 224 Substances of Very High Concern (SVHC's) currently on the candidate list in concentrations of >0.1% by weight.

The list of substances can be found at:

<https://echa.europa.eu/candidate-list-table>

Registration is required for companies that either produce or import into the EU any substance in volumes that exceed one tonne per substance. The Tibbetts Group does not exceed this import amount and will therefore not be required to register.

Jonathan Tibbetts
Managing Director
